The Milwaukee Radio Amateurs' Club Inc.

P. O. Box 26233, Milwaukee, Wi 53226
Phone: 414-459-9741
email: w9rh@arrl.net
http://www.w9rh.org

In continuous operation since January 1917
Affiliated with ARRL since December 1919
The oldest amateur radio club in Wisconsin and more!

Meetings: Last Thursday of each month except July, August and December at 7:00 p.m. in the basement of Redemption Lutheran Church, 4057 N. Mayfair Road (just north of Capitol Drive, west side of street) south entrance. Handicapped accessible.
Meetings are open to all (no license required)!

Our meetings consist of a brief business meeting and a program dealing with various aspects of amateur radio, electronics, and communications. Refreshments are available. There is usually a raffle of various radio/electronics related materials and free-for-the-taking magazines and books. At least one meeting per year (currently **May**) is an **AUCTION** of radio and electronic equipment (**open to anyone, with no selling fee charged**).

Hamfest: MRAC in collaboration with Milwaukee Area Amateur Radio Society sponsors an annual swapfest every year. In addition there is also a parking lot (HRO store) swapfest during Hamvention weekend for those not going to Ohio.

Ham radio license exams: MRAC founded and supports the MRAC-VEC who is one of 14 Volunteer Examiner Coordinators (VEC) in the US. They operate and coordinate testing sessions for all grades of amateur licenses on a regular basis and charge the lowest fee in the region.

Ham radio license classes: MRAC first conducted classes for amateur radio licenses in 1924 and has continued to do so at various times since. Interested in a class? Contact us.

Field Day: We participate in the annual *"Field Day"* emergency preparedness exercise / contest. We currently collaborate with the Milwaukee Area Amateur Radio Society (MAARS) and whatever other group wants to join us (yes, a collaborative Field Day).

Two meter repeater: W9RH on 145.39 MHz -600 KHz 127.3 Hz CTCSS. Coverage from Sheboygan south to the Illinois state line with a receive antenna at 735 feet. A Yaesu Fusion repeater since the first 100 beta repeaters (March 2014).

Friday night 10 meter net: 28.490 MHz USB at 8:00 pm.
Friday night 2 meter FM net: W9RH repeater - 145.39 MHz -600 KHz 127.3 CTCSS at 9:00 pm.
Saturday night 2 meter Fusion net: W9RH repeater - 145.39 MHz -600 KHz at 7:00 pm.
Monday night 2 meter Fusion Technical net: W9RH repeater - 145.39 MHz -600 KHz at 7:30 pm (repeater is linked to the MNWIS network with worldwide net check-ins).
